## About The Seminar

The New Education Policy (NEP) 2020 is a comprehensive framework aimed at transforming the education system in India. This policy provides for a comprehensive, sustainable, and reformative roadmap for a paradigm shift in the entire education system in the country to address the existing gaps and challenges and promote the holistic development of students. The main objective of conducting a National Seminar on NEP 2020 is to create awareness among educators and academicians about the key changes and provisions of the NEP 2020. It serves as a platform for participants to exchange ideas, know the pros and cons of the policy, and discuss innovative approaches and challenges for implementing the NEP in their respective institutions.
