

Green Guardians Club

Assumption college,

Autonomous, Changanacherry

Nature's Green Guardians Foundation (NGGF_n), established in 2011, is a nature guarding non-profit, to help conserve nature and to regenerate the lost naturescape, by encouraging and mentoring the young people to promote a middle path between the extreme positions of development at all cost' and 'fierce environmental protectionism'. NGGF_n gives support to higher education institutions, schools, and cultural organizations to form 'Club Green Guardians' of nature loving youth and promote nature nurturing activities, and spread awareness within the community. Green Auditing of Schools and Colleges, Creation of fast growing (Miyawaki model) urban forests, Green Sports, Safe Play (for kids), Campus Green, Voice Green, Responsible tourism for Sustainable destinations (SuRe), etc. are the different facets of the foundation's work towards biodiversity conservation and greening of lifestyles (www.nggfn.com). GREEN GUARDIANS OF ASSUMPTION COLLEGE, AUTONOMOUS, CHANGANACHERRY

Green audit can be a useful tool for a college to know how and where they are using the most of energy, water or other resources. The college can thus plan for the needed changes and ensure savings. It can also be used to improvise their waste minimization strategy. As environmental sustainability is becoming an increasingly important issue for the nation, the role of higher educational institutions in relation to environmental sustainability is more apparent. Over a period, the green culture will become the norm in the society.

The Green Audit process for the Assumption College during 2018-19 involved the creation of a student volunteer corps in the form of Green Guardians Club, and an audit team with students, teachers, members from Administration and Parent Teacher Association, as well as a team of experts who have practiced greening for years (including certified and accredited energy and environmental auditors and ecological administrators), through the Nature's Green Guardians Foundation (NGGFN). 26 students were trained to conduct the component audits, as well.
